## **Subject**

Public Works Department Monthly Reports

## **Recommendation**

Receive and file the April 2023, May 2023, and June 2023 Building Reports.

## **Background**

In May of 2023, the City's Public Works Department commenced use of EnerGov, its new cloud based permitting system. The components of this new system allow customers to conveniently apply for permits and make payments online. Notably, the building reports generated through EnerGov are prebuilt and have a different look compared to the previous system.

The Building Reports for the months of April, May and June 2023 were derived from EnerGov and capture all permit activity, including total issued permits, major projects, demolition permits, new building permits, certificates of occupancy, encroachment permits, and special event permits.

## **Fiscal Impact**

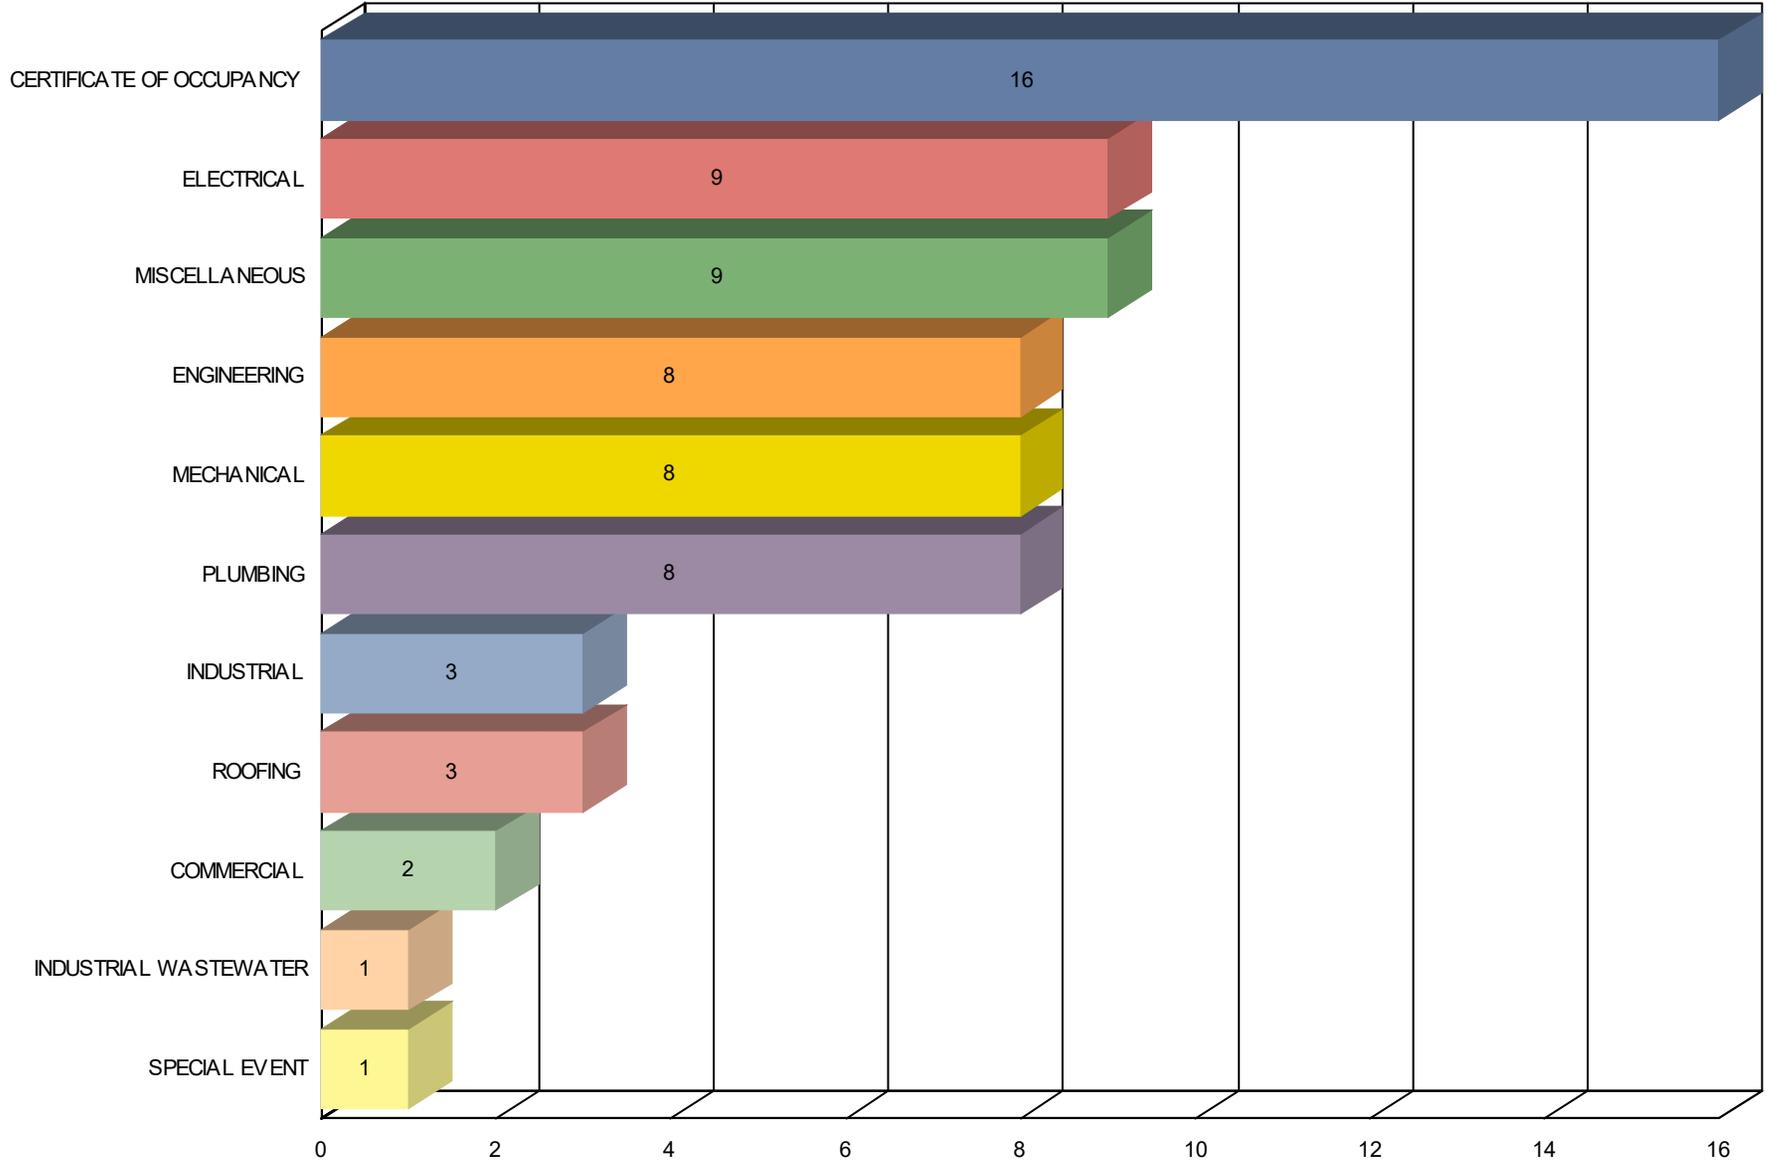

There is no fiscal impact associated with this report.
